LAB S14 – CRITTERS OF YOUR OWN CREATION

Using the GridWorld framework provided, you will create two Critters with special talents.

Criteria

1) Your Critters do NOT need to be based on X-Men characters.
2) Each Critter must override at least two of the Big 5 Critter methods (getActors, processActors, getMoveLocations, selectMoveLocation, makeMove).
3) You may not override the act method for any Critter.

Submission

1) You must show your completed program to Holm before 11:59 pm on Thursday, April 16, by sharing a screen over Google Meet or recording a video of your code being executed.
